Crawford County to be the action  
form of love for our neighbor!*

**Crossroads of Crawford County is designed to be an inviting & safe starting place for people to come with their personal and family situations.**

*Our work involves:*

**Finding resources that help** - connecting families with information according to unique needs such as substance abuse, marital discord, mental health issues, parenting challenges, teen years' issues, financial management basics & anything else.

**Referral** - linking with professionals, programs and services plus collaborative ongoing support.

**Christian encouragement** - journeying with individuals and families in search of hope and empowerment.

**Connection with Pathway Partners** - in order to optimize support, connecting with trained mentors or helpers can be an option.

*Let each of you look not only to  
his own interests, but also to the  
interests of others*
